

## Favourites iOS

### How to make a favourite group in Airports for iOS

#### **Make the group:**

- Open the airports app
- Select Favourites (indicated by the STAR)
- Select EDIT followed by the PLUS sign
- Give the group a name (i.e. Europe or CATIII airports or 24hr alternates, ...)
- Give the group a colour (optional)
- Airports will be listed alphabetically. Decide if you want the airports shown by name, ICAO code, IATA code or you want to decide the order yourself (i.e. along a certain route) (Custom)
- Select SAVE
- Select DONE

#### **Add airports to the group:**

- Find the airport using the search function
- Select the STAR
- Select the Favourite Group you want to add the airport to
- Repeat

OR

- Select Favourites (STAR)
- Select the group by tapping on the group name
- Select EDIT
- Find the airport you want to add by typing its name/code in the search bar at the top of the list
- Tap the PLUS button to add it to the group

#### **Changing the order of airports in a favourite group:**

- Select Favourites (STAR)
- Select EDIT
- Select the group you want to edit
- Select the SORT ORDER you want to use
- Select SAVE

OR

- Select Favourites (STAR)
- Select the group you want to edit
- Select the ARROW IN THE BOX symbol
- Select EDIT
- Select the ARROW IN THE BOX symbol
- Select REVERSE ORDER

(practical if your group are alternates en-route and you need to reverse the order on the return leg)

OR

- Select Favourites (STAR)
- Select the group you want to edit
- Select EDIT
- Select the ARROW IN THE BOX symbol
- Tap and hold the THREE LINES on the right of the airport name and move it to the desired position
- Select DONE

#### **Functions:**

##### **Seeing all weather and NOTAMS at once:**

- Select Favourites (STAR)
- Tap the INFO button next top the group name
- All weather and NOTAMS for the airports in this group will load

## Favourites iOS

### **Seeing weather and NOTAMS for an individual airport within a group:**

- Select Favourites (STAR)
- Select the group by tapping on the group name
- Tap on the INFO button next to the airport you want weather and NOTAMS for

### **Seeing all the airports within a group on a map:**

- Select Favourites (STAR)
- Select the group by tapping on the group name
- Select SHOW ON MAP at the bottom of the list OR use the ARROW IN THE BOX button to select SHOW ON MAP
- Use the TYPE button to switch between Standard and Satellite Map view

### **Seeing airport data for an airport within a group:**

- Select Favourites (STAR)
- Select the group by tapping on the name
- Select the arrow beside the airport name

### **Saving satellite data for offline use:**

- Select Favourites (STAR)
- Select the ARROW IN THE BOX button
- Select Save For Offline Use (this stores the satellite images for all the airports within the group for offline use)

OR

- Select Favourites (STAR)
- Select arrow next to airport you want to save data for
- Scroll down and select Save For Offline Use (this stores the satellite image for the specific airport within the group for offline use)
